STAT

Dear 

STAT

In my capacity as permanent chairman of the Joint Chiefs of Staff Interservice Working Party on Intelligence Ground Photography, it gives me considerable pleasure to extend my official and personal thanks for the hospitality extended the Working Party by your organization during the period 11-13 June 1960.

While other commitments precluded my own attendance at the meetings, I have subsequently received most glowing reports on the meetings in general as well as on  participation. I understand that persons of your staff presented a number of challenging ideas to the Group. Inasmuch as the Group membership includes representation from photographic research and development in each of the services, I am certain that your presentations fell on receptive ears and that you will be receiving inquiries from individual members and their services pointed toward ways wherein you may support their mission.

STAT

Again may I repeat our appreciation of your kind efforts and may I request that you relay our thanks to all of your employees who contributed to a highly successful and informative visit.

Sincerely yours,

ARTHUR C. LUNDAHL
